

Drug facilitated sexual assault can happen to anyone.

Don't stand by. Stand up!

Tell your friends it's not cool if you hear them joking about rape.

Distract or interrupt a friend who's making a move on someone who may be too tipsy or drunk to consent to sexual activity.

Keep an eye out on friends who are drinking, or who are mixing drugs and alcohol. Never leave a friend behind.

Check in with a friend who is in a situation that makes you feel uncomfortable or worried. Ask them if they are ok and if they need help.

Get help if you don't feel comfortable intervening. Ask someone else, such as a friend or a bartender, or call 911.

There's always something you can do to help.
